

**Severe Weather Statement
June 20, 2011**

There is a possibility of strong thunder storms affecting this evening's CWS Game 6. MECA, CWS Inc. and the NCAA are keeping a close eye on the developments. We are in contact with our weather monitoring service, and will make decisions accordingly.

If a weather delay becomes necessary, local media will be notified. The information will be available at CWSOmaha.com, TDAmeritradeparkomaha.com, the stadium website and the stadium Facebook page.

TD Ameritrade Park Omaha has emergency and contingency plans in place for all types of situations. Staff members have the information they need to respond to different developments. Should a weather event occur, guests are asked to remain calm and pay attention to both the announcements over the loudspeakers and the nearest usher or crowd manager for further directions.

If guests are outside the stadium, they should be aware that Qwest Center Omaha is open, and they may take shelter inside.
